**Guest Speaker:**

Our guest speaker this month was Councilman Peter Rogers. Peter is actively involved in our Water District and various Boards and has been for quite a while. He provided an overview of the history of Chino Hills water on how we obtained our various water sources. Chino Hills inherited our water conservation system from San Bernardino. In total, we have five water systems now supporting the Chino Hills area.

- WFA – Water Facilities Authority in Upland, Ca
- Monte Vista Water District in Montclair, Ca

- CDA-Chino Desalter Authority (Chino 1 and Jurupa)
- Ground water wells
- Inland Empire Utilities Agency (IEUA) for reclaimed water

In summary, Peter noted that our city was in pretty good shape for water. A new plant is to be installed behind Boy's Republic at a budget of \$6 million.

Drought is going to be an issue this year due to lack of rainfall, etc. Peter noted that solutions for this are in work and will be implemented by the City this year. He told us that Chino Hills received an award for one of the most proactive cities in the past drought.

Programs were discussed in which citizens can participate in drought tolerant ideas. Peter provided his cell number for those who may have further questions (909)342-3824. Thanks so much for this information and for your time, Peter Rogers!
